# whoroscope

by charlene lichtenstein

The most delightful things come from the most unexpected places when Sun in Capricorn conjuncts Venus. Don't sneer at a seemingly less-than-attractive opportunity. There may be royalty hidden within that smoochy frog. This week you find gold among the dreck.

## ARIES (MARCH 21 - APRIL 20)

Step up to the corporate plate and hit a home run. You know much more than you think and are capable of much more than the current administration believes. Prove them wrong, stage a corporate coup and throw the bums out.

## LIBRA (SEPT. 24 - OCT. 23)

Take the bitter with the better in any family situation. Who knows what breakthroughs are possible now? Strive for mutual respect, if you can. Of course others may have their inane opinions, but as long as you remain proudly true to yourself you will prevail.

## TAURUS (APRIL 21 - MAY 21)

You have probably been traveling more, but enjoying it less. Worry not; everything will fall into place during Sun-Venus conjunct. Gay Bulls may embark on new study that proves to be extremely rewarding. Become too smart for your own good, baby.

## SCORPIO (OCT. 24 - NOV. 22)

The frank opinion that you blurt out may be just the bit of fresh air needed to get things on track again. Say what you mean after careful consideration. Perhaps it's time to write that great gay manifesto. Use it to manifest your destiny. No names please!

## GEMINI (MAY 22 - JUNE 21)

Sun conjunct Venus heats up your sexuality, but keep lovers at arm's length. The toad you avoid now could be the king or queen of your wet dreams later. Hedge your bets, queer Twin, and play deliciously hard to get.

## SAGITTARIUS (NOV. 23 - DEC. 22)

Get your values in sync with your personal finances. A shopping spree that puts you in the hole could prove to be a valuable lesson. Hmm. Perhaps gay Archers should buckle down, don their green eyeshades and do their financial homework. How boring.

## CANCER (JUNE 22 - JULY 23)

Just when you may toss it all away in a particular relationship, optimistic Sun conjunct sexy Venus rearranges your priorities. Gay Crabs should not take any firm stands now. I advise a reclining position (feet in stirrups if you've got 'em).

## CAPRICORN (DEC. 23 - JAN. 20)

Sun and Venus set off sparks. Queer Caps must take their pride to the streets while this fabulous energy propels you into the limelight. Be kind and magnanimous to all. You never know who will figure prominently in your life's goals and it would be a shame to snub 'em.

## LEO (JULY 24 - AUG. 23)

Sun and Venus make even onerous jobs a little more interesting. Learn as much as you can from every little boring task. Queer Lions may soon begin to see the light at the end of the tunnel at work. (Let us hope that it is not the light of an oncoming train.)

## AQUARIUS (JAN. 21 - FEB. 19)

Aqueerians feel at one with our community as planets offer an outlet for charitable efforts. You may not see Cinderella as a breakthrough role, but grab it dear, queer friend. Once you clean the chimneys, you get to the ball and fit into those glass slippers.

## VIRGO (AUG. 24 - SEPT. 23)

Proud Virgos are certainly no slouches around Party Central. But all play and no work make queer Virgins dull party hounds. Use this fabulous opportunity to hone your more artistic and creative skills. So what's your motivation, pal?

## PISCES (FEB. 20 - MARCH 20)

Don't be suspicious of any friendly goings on; you may jump to the wrong conclusions. Go with the flow Guppie and throw your social net far and wide. The group dynamic may in fact direct you to your life's mission, so stop kvetching and listen!

# a party for every person

**Bars across the Deep South are ready for you to welcome in the new year**

Across the Deep South, gay boys are readying for one of the biggest party nights of the year — New Year's Eve. There's no shortage of events to plan for, so get ready to party like it's, well, 2001. Grab those pencils, ready those party shirts and mark your calendars to ring in the new year.
