

SPECIAL ELECTION NEWSLETTER

SEE ENCLOSED ENDORSEMENT CARDS

This November 4th we have an opportunity to make a powerful statement on behalf of gay and lesbian civil rights. We can make this statement without fear of reprisals. Gay men and lesbians by the thousands will be going to the polls to vote. The Gay Political Caucus presents to you our slate of candidates both Democratic and Republican.

The candidates tell us that the process used by GPC to screen for endorsement is the most thorough in the County. Each candidate that has been endorsed was personally screened by GPC members. Every candidate that we have endorsed has expressed an acceptance of non-discrimination based on sexual orientation and favor repeal of Section 21.06 of the Texas Penal Code. Besides being assessed regarding their positions on such issues as the Equal Rights Amendment, abortion, and transpeople concerns, the electability of candidates was also examined.

Our endorsement was actively sought this year because of the power we choose to exercise with the BLOC VOTE. Do not dilute this power; vote the entire slate.

We have more reason to act united this year than ever before. We are under the most serious of attack by the new right, in particular, the religious right-wing. If they are successful, not only will progress be halted, but repressive measures will be advocated that would literally turn back the pages of history to a time in which we were classified as degenerates and subjected to cruel and dehumanizing punishments.

The religious right believes that we can be "re-claimed" from our miserable state of existence and made whole again. Groups such as the King Ministries actively promote the deprogramming of homosexuals. Every group, Moral Majority, Christian Voice, and the Religious Roundtable state that gay and lesbian lifestyles is a conscious choice of a state of sin that damns us to hell. They feel duty bound to save us, and if we refuse to be saved to punish us to the extent society will allow.

The Moral Majority takes specific objection to those who minister to us. They view the ordination of gay men and lesbians as the greatest possible sacrilege. They reject the possibility that any gay man or lesbian could be a Christian in good standing with God.

Our jobs are at stake. Both the Moral Majority and Christian Voice take great exception to gay men and lesbians teaching within the public schools. Other professions which would be soon endangered if these bigot come to power are the helping professions (nurses, doctors, social workers, etc.) and the professions which require licensing by the State (attorneys, accountants, etc.). Any job which involved contact with children would be subject to their attack.

Surely we do not have to explain the danger that establishments such as bars, baths, and bookstores which serve a gay or lesbian clientele would suffer.

While the religious right wing mentality may be primitive, their organizational techniques are sophisticated. Using computer technology and public

relationship." Even the closet will not provide a guarantee of safety.

A few weeks ago the Moral Majority held a meeting here in Houston. They met in the Holiday Inn next door to the GPC office. A statement was released to the press attacking gay and lesbian rights.

A candidate running for County Attorney has mailed into Harris County literature which is clearly gay-baiting. The literature was mailed from Virginia where the right-wing computer is located.

It is happening in Houston, not just on the news or in some faraway place.

Gay men and lesbians have made great progress in recent years. We have so much work yet to be done. Our community must unite with volunteer efforts as well as pooling our resources so that this great threat to our liberty and to our dignity as people is stopped.

The slate of GPC endorsed candidates needs your support. Their campaigns deserve your volunteer service and financial contributions. If you wish to get involved, you may call GPC and leave a message for the Political Action Committee. We will return your call and advise you as to where you may be most effective with your support.

The GPC also needs the volunteer and financial support of the community. Call 521-1000 to get involved, either directly with a campaign or with the projects outlined by GPC to bring us victory in November.

The GPC is committed to the concept of full equality for gay men and lesbians within society.

While the threat we face is serious, we are encouraged with the support and dedication that our community has displayed.

On November 4th we must go to the polls in numbers never before counted to speak in one voice for our rights. The quiet act of casting a ballot when done in great numbers and the unity of the bloc vote will sound a thunderous cry for justice which will be heard clearly and listened to with attention. Politicians listen to those they cannot afford to ignore. Spread the word. We will be free; we will be strong; we will be united; we will vote this November 4th as if our lives depended upon it.

relations experts they are able to raise millions of dollars. Using the pulpit network they have registered over 4 million new voters. With the Christian Broadcasting Network at their command, they can reach tens of millions of people. Jerry Falwell of the Moral Majority is the second most viewed television personality in this country (second only to Johnny Carson).

We are the only minority group in this country that has the option of the closet. Neither Blacks, Browns or women can elect to evade persecution through retreat into a hidden identity. Even the closet will not be without penalty as these groups seek to change the tax structure to favor individuals who have opted for a "state marriage

VOTE FOR CARTER

The Gay Political Caucus by an overwhelming vote at its October 15th meeting passed a resolution to endorse President Jimmy Carter and Vice President Walter Mondale.

This endorsement followed much discussion and debate. The following resolution was introduced and passed by a wide margin:

"Whereas Jimmy Carter and John Anderson, both supporters of lesbian and gay rights, are candidates for President of the United States, and even though the Carter administration has not met all of the gay community's expectations, it has opened the doors to the gay and lesbian community in an unprecedented fashion, resulting in more substantive advances for gay rights than under any previous administration.

The political reality is that failure to support Jimmy Carter in this important and close election may lead to a Reagan administration which will be blatantly hostile to gay and lesbian goals and will not only prevent further gains, but will clearly nullify past accomplishments.

And whereas the Carter Administration support the inclusion of gay and lesbian rights language in both the National and Texas Democratic Platform,

Therefore, it has been resolved that the Gay Political Caucus of Houston endorses the reelection of President Jimmy Carter and Vice President Walter Mondale."

Besides the support of the pro-gay and lesbian civil rights language in the National and Texas Democratic Platform, the Carter Administration has taken several other actions of support for our community.

1. President Carter signed into law in 1978 the Civil Service Reform Act prohibiting discrimination against gay men and lesbians in about 95% of all federal civil service jobs.

2. The Justice Department will no longer initiate inquiries with foreign visitors about their sexual orientation or preference.

3. The Carter Administration has formally adopted a position favoring the repeal of the law barring homosexual aliens from visiting this country.

4. Gay and lesbian organizations now qualify for exemptions and deductions from federal income taxes.

5. A Federal Communications Commission rule requires that broadcasters must meet the needs of significant community groups--including gay and lesbian organizations.

6. Gay and lesbian literature is now allowed in federal prisons.

7. The CETA program provides funds for workers in gay and lesbian organizations.

While some support was expressed for John Anderson, the majority felt that his electability was highly questionable. Several members during discussion expressed the view that a vote for Anderson was the equivalent of a vote for Ronald Reagan.

The overwhelming sentiment of the members in attendance at the meeting was that nothing could be more harmful to the progress of gay and lesbian civil rights than the election of Ronald Reagan to the White House. On this point, a strong case was made on Reagan's anti-gay history.

In an interview with the Christian Association in 1979, Reagan is quoted as saying, "I do not believe society should recognize or accept homosexuality as a so-called 'alternative life style.'"

In addition, the following points were made regarding Ronald Reagan's anti-gay and lesbian record.

1. As Governor of California, Reagan blocked repeal of the state sodomy law for many years by letting it be known that he would veto any repeal bill that reached his desk.

2. He dismissed two of his top aides after he learned that reporters were about to 'expose' them as homosexuals.

3. While Governor, Reagan referred to gays as "sick unfortunates".

4. Reagan has publicly aligned himself with religious right-wing groups such as Moral Majority, Christian Voice, and the Religious Roundtable.

5. Reagan hired Robert Billings, former Executive Director of Moral Majority, to become a member of his campaign staff.

6. Reagan appeared at the Religious Roundtable's National Affairs Briefing recently held in Dallas where strong anti-gay and lesbian statements were made. Reagan told this group, "I endorse you in what you are doing."

The gay and lesbian community of America is under attack by organized groups that seek to destroy all that we have accomplished.

It is important that we look beyond economic issues and examine the candidates' stands on our issues.

If we do not accord gay and lesbian civil rights importance in assessing the Presidential Race, who will?

Human dignity is our inalienable right. Our civil rights are on the front line of American politics today. The groups which are attacking us not only oppose legislation that would protect gay rights, they are supporting legislation that would legalize discrimination.

Discrimination is a perversion of our democratic heritage. Discrimination affects our self-image, our ability to secure justice and our ability to earn a living.

The struggle for gay and lesbian rights is not a luxury that can be postponed. Our dignity, our jobs, and our future are at stake. The gay rights issue is tied to economic issues--what good is a tax cut when you have been fired for being gay or lesbian.

The following quote from the National Democratic Platform was supported by the Carter Administration:

"We must affirm the dignity of all people and the right of each individual to have equal access to and participation in the institutions and services of our society. All groups must be protected from discrimination based on race, color, religion, national origin, age, sex or sexual orientation. This includes specifically the right of foreign citizens to enter this country. Appropriate legislative and administrative action to achieve these goals should be undertaken."

President Carter has also pledged to continue his policy of appointing qualified individuals without discrimination based on race, color, sex, religion, national origin or sexual orientation.

VOTE NO ON PROPOSITION 2

Proposition 2 on the November 4th ballot would amend the Texas Constitution to give the State a limited right of appeal in criminal cases. If passed the State would have the right to appeal pre-trial rulings on:

- the constitutionality of a statute,
- a motion to quash, dismiss, or set aside an indictment, or,
- a motion to suppress evidence.

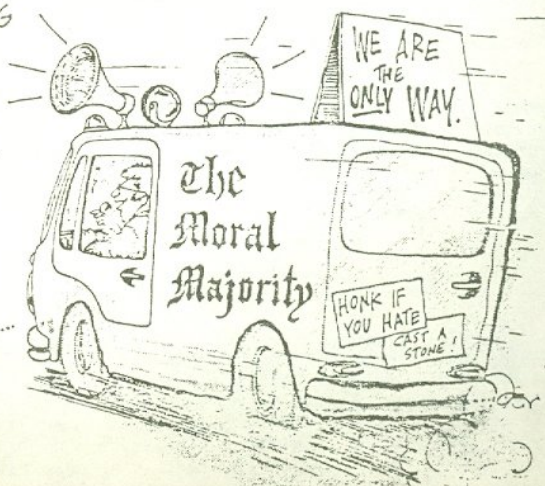

The main arguments against this measure are that such appeals could delay a case being heard on its merits for as long as two years and the additional attorney fees necessary to fight the appeals would be an unfair burden on a defendant.

There is concern expressed that because of the vast resources available to the State, a defendant could be badgered into submission with numerous and expensive appeal initiated by the State.

This proposition could provide the State with a powerful tool that could be abused in criminal proceedings.

Vote NO on Proposition 2.

OUR CANDIDATES' REQUESTS

A Gay Political Caucus endorsement means more than just votes. It is a commitment to support candidates with volunteer service as well as financial contributions. Please review the request that have been listed below and lend whatever assistance that you are able to any of our endorsed candidates.

MICKEY LELAND

Mickey's campaign headquarters is located at 3333 Fannin (523-5908). Volunteers are needed especially on the weekends and evenings to help staff the office, work on mail-out activity and assist with compiling voter lists.

Mickey is the only Congressperson from Texas to have voted against the anti-gay MacDonald Amendment. He is a true friend to our community.

DEBRA DANBURG

Debra's district includes the Montrose, Heights, 4th Ward and 6th Ward. Debra is a graduate of Bates College of Law and served in Austin as a legislative assistant to Ron Waters for five years. She is the only candidate in her race with legislative experience. Debra received a 99.8% rating by the GPC screening panel.

Her campaign office is located at 3409 Washington, (868-0970) where you will find many friendly and familiar faces. Volunteers are needed to assist with yard sign assembly and delivery, mail-out activity, phone calling, as well as push card volunteers on the day of the election. Assistance will also be needed the Saturday after the election to take down signs.

PAUL COLBERT

Paul's district includes such areas as Rice University, Hermann Park, and the Astrodome. Colbert previously served as the Research Director of the Texas Senate Education Committee and from 1967-1971 was in the Honors Program of the University of Houston Political Science Department. He won his Democratic run-off with 71% of the vote and received a 96% rating by the GPC screening panel.

Paul's campaign office is located at 2416 W. Holcombe (664-5123). Volunteers are needed to put up yard signs, assist with door-to-door leafletting as well as block walking.

JACK OGG

Senate District 15 includes the Montrose, Heights, as well as Memorial and Spring Branch. Jack Ogg has an impressive civil rights voting record and was rated 88% by the GPC screening panel. Redistricting will be a primary issue in the up-coming Legislative Session and Jack Ogg has pledge his support to keep the Montrose area in tact.

His campaign office is located at 8046 Long Point Rd. (461-0020). Volunteers are needed to build yard signs and to distribute the signs. Mail-out activity as well as push card volunteers are needed for election day.

Ogg's reelection is critical for gay and lesbian Montrose residents in order to insure that our community is not sliced like a pie during the redistricting in Austin next year.

His opponent stated to the GPC screening panel that he was opposed to the repeal of Section 21.06 of the Texas Penal Code. Ogg supports the repeal.

PAT LYKOS

Pat Lykos is the incumbent Judge in this race. She has expressed the strongest possible commitment to fairness for all who come before her court.

Because of recent false statements attributed to Judge Lykos, intense pressure directed at GPC because of this endorse, and because of our faith in her candidacy, this race has been targeted for support by GPC.

Judge Lykos responding to accusations that she would always take a police officers word over that of any witness in her court, replied, "I have always made it a point to impress upon prospective jurors the need for fundamental fairness without bias, prejudice, or sympathy for one side or the other. Every single witness, without exception must be assessed for credibility and believability. Fairness and impartiality is the heart of the trial system."

Volunteers may assist her campaign by calling 353-9558 or contact Barbara Ball at 221-6216. Assistance is needed with delivering yard signs as well as pushing cards on election day.

MIKE DRISCOLL

Mike is a long time friend of our community. His opponent has attacked him for receiving the GPC endorsement. A letter was sent throughout the county attacking him because of our endorsement. This letter was mailed from Virginia where the right-wing computer is located.

Mike's campaign office is located at 806 Maugh Drive (526-7300). Volunteers are needed to put up yard signs as well as push cards on election day.

While under attack, he has not wavered in his support for our rights. He needs and deserves our help.

FRED DAILEY

We have an outstanding choice for District Attorney in Fred Dailey. He has pledged to serve in that office with an attitude of fairness and non-prejudice. The GPC screening panel scored Fred's responses with a 93%. This race should be of critical concern to gay men and lesbians.

Fred's campaign headquarters is located at 3333 Fannin, (523-5908). Volunteers are needed to help staff the office on weekends and evenings, assist with mail-outs and compiling voter lists.

ROBERT HINOJOSA

Robert is certified as a specialist for family court law. His qualifications and the manner in which he conducts himself has been extremely impressive to GPC members.

His campaign office is located at 2303 W. Alabama (526-2079). Volunteers are needed to assemble and deliver yard signs, assist with mail-out activity as well as other office task.

ROBERT BAUM

Robert Baum is the incumbent Judge in this race. His responses before the GPC screening panel indicate that he would serve in office with a sense of fairness and dignity that would command respect. The sensitivity he expressed towards human rights issues was outstanding.

His campaign office is located at 3314 Richmond (529-0656). Volunteers are needed to help with yard signs as well as mail-out activity.

WALTER RANKIN

Constable Rankin has a history of support for our community which includes donating constable services for events such as the Gay Pride Week Rally. The GPC screening panel rated Mr. Rankin's responses with a 92%.

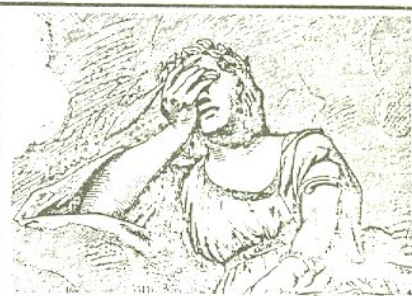

Individuals interested in volunteering in his campaign should call 695-6467 for further information.

MIRON LOVE

The first openly gay members of a grand jury panel were appointed in Harris County by Miron Love. He scored an 88% on his screening with GPC.

Because of some concern expressed over his sentencing of three young men who attacked a member of our community, this endorsement was reexamined. An investigation into the details of this case revealed that Judge Love gave a harsher sentence to the defendants than had been recommended by the pre-sentencing committee and that his sentencing in no way reflected a problem in attitude towards our community.

His endorsement was reaffirmed by the Gay Political Caucus October 15.

MONTROSE PATROL

If you call 520-9616, you will hear a recording informing you that the Montrose Patrol has temporarily resumed operations. This does not mean that the need for their services is waning, it means that we have neglected to pay our dues in terms of supporting that organization.

Every week we read or hear of more assaults, muggings, shootings, etc., occurring in the Montrose area. Gay men and lesbians have been the frequent targets of many of these violent acts. Many of the assaults have been brutal.

The volunteers of the Montrose Patrol have faithfully and skillfully provided a much needed service to the community in the past year. However, members of the community who derive benefit from their mere presence during the evening hours have taken this service for granted.

We have failed to contribute our time as volunteers so as to provide some relief to the volunteers who have dedicated many long hours to protecting us. We have also failed to help with financial assistance creating another hardship for the few committed individuals who pay more than their share.

The Montrose Patrol operates with such a professional manner that high ranking officials within the police department have been extremely complimentary about the Patrol's professional approach to this greatly needed community service.

The concept of the Montrose Patrol is basic to neighborhood self-help. What is missing at this point is that precious few neighbors are helping and we all assume that this obligation belongs to someone other than ourselves.

You do not have to exercise poor judgement or behave outrageously in the late evening hours or early morning in order to be victimized. Individuals have been assaulted walking to the store for a pack of cigarettes, crossing the street, or just stepping outside of one's apartment to pick-up a newspaper.

Not only is it not fair that all of the responsibility for this community service be born by a few individuals, it is impossible.

We have a valuable community asset that we are allowing to be depleted beyond replenishment. If the Patrol is unable to continue to operate, the community loses and the cost could very well be the life of a friend, or even our very own.

It is not necessary that we make a substantial commitment of time or money in order to sustain this operation. If only a small percentage of us would make a modest donation of time or money, not only could the

program be adequately supported, but extended services might prove to be possible.

If you have a few hours, or more, an evening that you would be willing to donate in order to contribute to the safety of our neighborhood, call 520-9616.

It is not necessary for every volunteer to join the Patrol on the streets. Other types of assistance are needed as well, such as helping with the paper work, fundraising, development of service, and many other ways too numerous to list.

If you are interested in helping the Patrol with their activity on the streets, training is provided.

Contribution should be sent to P. O. Box 3833, Houston, Tx. 77001. The Patrol advises that it takes approximately two week for a donation to be deposited. All donations of whatever size are appreciated and needed.

The Patrol will be sponsoring an American Red Cross First Aide Class October 25 and 26. This is one class offered over a two day period. The materials participants need to acquire cost less than \$8.00. The class will be held from Noon until 4 pm on each day.

It is necessary that reservations be made as participation is limited. If this proves to be successful, the Patrol hopes to sponsor other such classes in the near future.

The participation of women with the Patrol has always been encouraged. Many acts of violence which have occurred in the neighborhood have been committed against women. The incidents of rape in the Montrose area is high. Participation with the Patrol by women can directly benefit women who are subject to attack often on their way to their car.

If it has to happen to us personally or to someone we love before we get concerned enough to get involved, it may be too late. Death is not a consciousness-raising experience.

Take the dark and the streets back from the muggers, rapists, and other punks who terrorize our evening.

Take the opportunity to work with a dedicated group of volunteers who provide excellent training and rewarding experiences for volunteers.

Take just a few minutes this week to pick up the phone and call the Patrol at 520-9616 to find out how you can contribute to this invaluable program.

The recording says, "The Montrose Patrol has temporarily resumed operations." If you come to the Montrose to play, injury may be the dues that you pay.

LGDT

Delegates, alternates and volunteers of Lesbian and Gay Democrats of Texas have recently won a major victory for lesbian and gay rights.

The Texas Democratic Convention held in Houston this past September has passed a platform calling for non-discrimination on the basis of sexual orientation as well as going on record in support of the repeal of Section 21.06 of the Texas Penal Code.

After an hour of debate and parliamentary maneuvering the delegates passed the platform language by a three hundred vote margin. This is the same margin that a resolution of a similar nature failed at the convention held in San Antonio in June.

Support was received from delegates in the urban areas with a great deal of support coming from Black and Hispanic delegates. In addition, the Carter Administration was instrumental in providing much needed assistance when parliamentary slight of hand was attempted. A telegram had been sent to President Carter asking for assistance in obtaining a fair hearing at the convention a few days before the convention was convened.

While the straight press reported that most of the delegates had left suggesting that the victory was in some way hollow, gay and lesbian delegates and alternates insisted quite the opposite.

"We pushed for the earliest possible vote," Steve Henley one of the State Co-Chairs of LGDT remarked. "Our people were leaving as well and we were confident that if the vote was held with a full convention in place we would win by a margin of 52 or 55%."

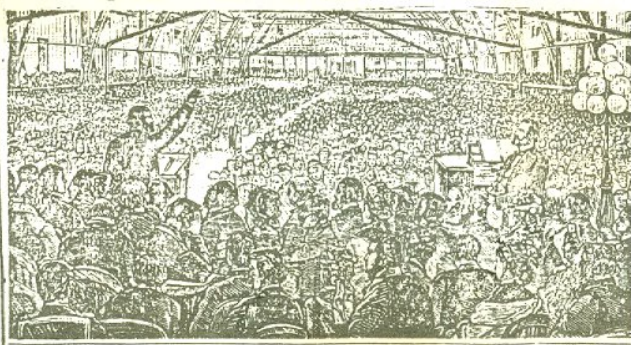

Other gay and lesbian participants commented upon the large number of straight delegates who wore buttons which said, "I'm Straight and I Support Gay Rights." The buttons provided an easy mechanism for identifying supporters as well as providing good promotion for the issue within the various Senatorial Districts.

Lesbian and Gay Democrats of Texas have endorsed President Carter and are busy working in support of his election within the various gay and lesbian communities in the state.

Once elections have been completed, the group will turn its attention to the Texas Legislature which will be meeting in Austin this January.

Lobbying efforts will be undertaken to provide defense against anti-gay and lesbian legislation as well as to explore the possibility of the repeal of Section 21.06.
